THE GANDHIDHAM CHAMBER OF COMMERCE AND INDUSTRY

Appeal to Protect Yourself by Voluntary Lockdown!

The present Corona spike has reached unprecedented high and has affected scores of people. The healthcare system is collapsing under tremendous pressure. Everywhere the patients are waiting to be admitted in time for treatment. Never before have we seen such a serious pan India pandemic.

The issue whether to observe lockdown - has been discussed amongst Managing Committee members and leaders of various Trade Associations.

The GCCI appeals to all businessmen to take the decision in their own individual capacity whether to shut down their business for a few days. They should not bother about what next door neighbour / others are doing. Precaution is better than Cure - was never more true than in today's time.

To reiterate, the GCCI would like to appeal to all Businessmen to voluntarily shut their businesses for at least 5 continuous days to help break the chain. It is the best thing that we can do in these difficult times. Apart from serving the society, this will isolate us and our dear family members from this highly infectious virus.

Stay Safe. Protect yourself. Protect your families. Emerge Winner!
